

Takara Bio Group Environmental Policy

Takara Bio Group positions the harmonization of its business activities with global environmental preservation as one of its key challenges, and contributes to building a sustainable society by establishing and continuously improving the environmental management system.

1. We comply with laws and regulations related to the environment, in addition to other requirements that we have agreed to.
2. In the course of Takara Bio Group's business activities, we place particular emphasis on the following items.
 - ① We strive to prevent environmental pollution.
 - ② We strive to promote energy and resource conservation, and try to use sustainable resources.
 - ③ We strive to reduce greenhouse gas emissions and mitigate climate change.
 - ④ We support and promote activities related to biodiversity and ecosystem protection and preservation.
 - ⑤ We will contribute to the realization of a recycling-oriented society by reducing water consumption, controlling waste generation, and promoting recycling.
3. We actively disclose information on our environmental initiatives and environmental performance, while striving to communicate with society.
4. While using education and awareness programs to convey this Environmental Policy to all members of Takara Bio Group, we also energetically support employees' participation in social contribution activities.
